markdown-gallery Documentation

Release 1.0

Ziga Zupanec

June 15, 2015

Contents

1 Contents **3**
- 1.1 markdown gallery . . . 3
- 1.2 Documentation for the Code . . . 3

2 Source Code and Issue Tracker **5**

3 Indices and tables **7**

```
.---------.---.-.-----.|   |--.--|   |.------.--.--.--.------.
|         |  _  |    _||     <|  _  ||  _   |  |  |  |      |
|__|__|__|___._|__|   |__|__|__|_____||______|_________|__|__|
.------.---.-.|   |  |.------.-----.--.--.
|  _   |  _  ||   |  ||  -__|    _|  |  |
|____  |___._||__|__||______|__|  |____  |
|______|                          |______|
```

There is so much more to add.

CHAPTER 1

Contents

1.1 markdown gallery

Table of Contents

- *About*
- *Usage*

1.1.1 About

markdown gallery watches a directory for new images, generates thumbnails and outputs a markdown file with your images.

1.1.2 Usage

You might want to change:

- **in gallery_to_markdown.py** ABSOLUTE_URL: Absolute url of your site. *http://mysite.com/gallery*.
- **in gallery.py** THUMBNAIL_PREFIX: Prefix for thumbnail. Defaults to *t_* THUMBNAILS_DIR: Name of thumbnail directory inside a gallery, default *t*. THUMBNAIL_SIZE: Defaults to *128x128*.
- **in gallery_watcher.py** THUMBNAIL_PREFIX, THUMBNAILS_DIR, THUMBNAIL_SIZE, OUTPUT_FILE: These constants are ignored by gallery_watcher. This is redundant but keep it same as in gallery.py. WATCH_DIRECTORY: root directory of your galleries. That would be */home/galleries* in below file tree.

```
|-- home
|   |-- galleries
|       |-- gallery_1
|       |-- gallery_2
|       `-- gallery_3
```

- run *python gallery_watcher.py*

1.2 Documentation for the Code

CHAPTER 2

Source Code and Issue Tracker

For development GitHub is used, so source code and issue tracker is found there.

CHAPTER 3

Indices and tables

- genindex
- modindex
- search
